# Toshiba connects with business

In 1985, Toshiba developed the world's first industry-standard notebook computer. It was intended for business, and helped trigger the revolution in productivity that continues to this day.

Toshiba's current range is constructed with the same objective in mind: to push the leading edge of technology to help people work smarter, perform better and achieve more.

## WHY TOSHIBA FOR NOTEBOOK?

### 30 years developing notebooks

We've remained at the forefront of notebook technology since 1985, leading the way with a series of world firsts.

### Customer support

To minimise downtime, we operate call centres and have a nationwide network of authorised service centres.

### Toshiba built BIOS

Toshiba notebooks use a BIOS developed, designed and written in-house, providing security and ensuring compatibility.

### Reliability and durability

Productivity depends on availability. So our business class Tecra and Portégé devices have reliability and durability built in.

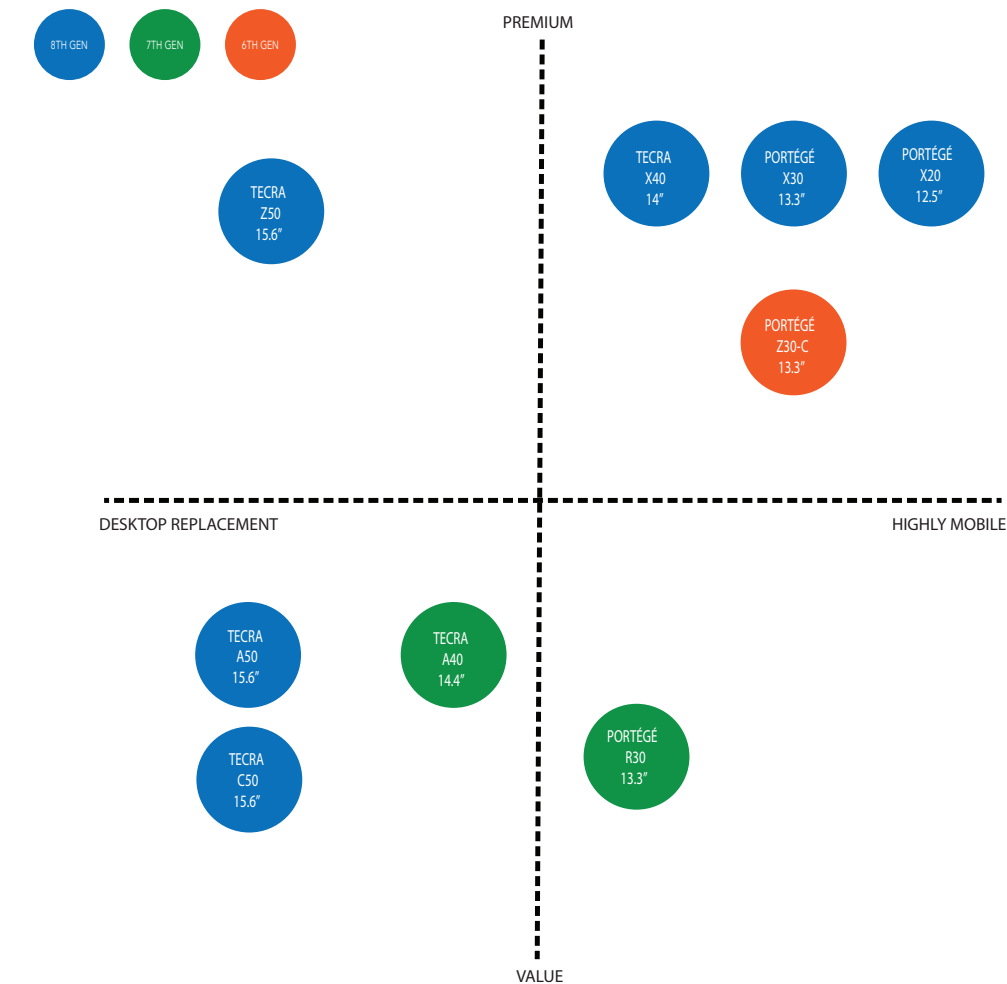

### Environmental responsibility

Toshiba is committed to developing environmentally responsible practices and processes at each stage in the product lifecycle.

### Looking forward to the future

Toshiba invests significantly in R&D. We're committed to driving the digital revolution for the next 20 years, and beyond.

## Range Overview

### TECRA

The Tecra series consists of business class notebooks designed for demanding users and fleet buyers. They're equipped with numerous reliability, durability, productivity and manageability features.

### PORTÉGÉ

Portégé notebooks are ultra-slim, ultra-light and ultra-durable. Like the Tecra series, they're designed for use in fleets and equipped with advanced battery life and management features.

## Warranty and Support

### TECHNICAL SUPPORT ONLINE

- › Toshiba's online support centre is a convenient and comprehensive first point of contact for technical advice, files & drivers, FAQ and forum discussions. A booking portal makes it easy to escalate any service and support enquiries.
- › [www.anz.dynabook.com/support](http://www.anz.dynabook.com/support)

### TECHNICAL SUPPORT

- › Centralised level 1 telephone support with escalation to local technical specialists who manage complex problem solving and co-ordination with our Engineering centre in Japan.
- › **AU 13 30 70 Mon-Fri 8.00am-6.00pm (AEST)**
- › **NZ 0800 445 439**

### SERVICE CENTRES

- › Toshiba has a blend of direct and authorised service centres specifically trained to support your business fleet.

### EXTENDED SERVICE & SUPPORT PLANS

- › For organisations with higher uptime requirements than those provided by the standard warranties, Toshiba offers a range of service and support plan upgrades. Call your Toshiba representative for more details.

## Portégé X20

Innovative. Ultra Light. Modern. Powerful.

Sleek, versatile, modern and powerful. The X20-E embodies these characteristics and much more as Toshiba's new premium 2-in-1 convertible notebook. A 360-degree, dual-action hinge allows the Portégé X20-E to easily transform from a powerful, performance oriented notebook into a premium digital inking tablet by simply rotating the display. This increased usability is ideal for any business or learning environment.

- » 8th Generation Intel Quad-Core Processors
- » Windows 10 Pro
- » 12.5-inch Convertible FHD display
- » SSD PCIe NVMe, from 256Gb
- » DDR4 2400Mhz, from 8Gb to 16Gb RAM
- » Windows Hello™, Dual IR Cameras or Fingerprint Reader
- » Wacom Active Digitiser Pen
- » USB-C™ / Thunderbolt™ 3, USB 3.0, Headphone/microphone combo port & USB-C to USB 3.0 and HDMI via bundled adapter.

# Thunderbolt Accessories

## THE X20 WITH THUNDERBOLT™ 3.

Business class goes supersonic with one of the first enterprise-grade convertibles to feature Thunderbolt™ 3 to accelerate tasks such as file-sharing and back-ups. Toshiba's range of Thunderbolt™ 3 dongles make it easy to connect plus power almost anything via a single cable whether in the office or on the road.

### Thunderbolt 3 highlights:

- » 40GB/sec transfer rates.
- » Ability to daisy chain up to 6 devices from one port.
- » Up to 100 watts of power to run external drives.
- » Ability to run three separate 4K monitors simultaneously with the Toshiba Thunderbolt™ 3 Dock.
- » Backwards compatible with DVI, HDMI and VGA via adapters.
- » Connect the X20 to the Thunderbolt™ 3 Universal Docking Station.

## TOSHIBA USB-C / THUNDERBOLT™ 3 DONGLES

Connect to any external device or peripheral with one cable that will also charge your notebook.

HD Monitor

## Tecra X40

The perfect blend of Display and Mobility.

The new Tecra X40 answers the call for users seeking a large screen notebook without any sacrifice to mobility. At 16.9 mm thin and weighing just 1.2kgs with a 14-inch display, this notebook delivers the portability of an ultraportable and the screen to tackle any task. In addition to its ultrathin and ultralight form factor, Toshiba modernized the look-and-feel of the notebook's magnesium-alloy casing to the new premium Onyx Blue coloring. Even with the streamlined design, the new Tecra X40 delivers the power and innovations expected from a Toshiba business solution.

- » 8th Generation Intel Quad-Core Processors
- » Windows 10 Pro
- » 14.0-inch Widescreen FHD touch display
- » SSD PCIe NVMe, from 256Gb
- » DDR4 2400Mhz, from 8Gb to 32Gb RAM
- » 1 x HDMI, 2 x USB-C™ / Thunderbolt™ 3, 1 x USB 3.0, micro SD & Headphone/microphone combo port.
- » Magnesium Chassis
- » 3 year international limited parts and labour Warranty
- » Compatible with Toshiba Thunderbolt™ 3 Dock (PA5281A-1PRP)
- » MIL-STD-810G tested

## Portégé Z30

So sleek. So powerful. Does so much.

Equip your best producers with the tools to go the extra mile. The super-thin, extra-light and very powerful Portégé Z30 laptop is the ultimate ultra-portable computer. With 13.3" screen, it's the perfect blend of style, speed and battery life all wrapped up in an impeccably crafted magnesium alloy ToughBody casing for superior protection and durability.

- » 6th Generation Intel Dual-Core Processors
- » Windows 10 Pro (Windows 7 compatible)
- » 13.3-inch Widescreen FHD display
- » SSD, from 256Gb
- » From 8Gb to 16Gb RAM
- » 1 x HDMI, 3 x USB 3.0, 1 x VGA, Ethernet, Bridge Media Slot & Headphone/microphone combo port.
- » Magnesium Alloy Chassis
- » 3 year international limited parts and labour Warranty
- » Docking Connector compatible with Toshiba Hi-Speed Port Replicator III+ (PA5117A-1PRP) or Toshiba U3.0 (PA3927A-1PRP) or 4K (PA5117U-1PRP) Docking stations

Windows 10 Pro means business.

## Tecra Z50

The topflight portable desktop replacement that means business.

Toshiba's 15.6" Tecra-E Z50 desktop replacement is sleek, light and bred for enterprise performance and manageability. It's packed with all the features, security enhancements, and proven Toshiba durability business professionals need to be productive in or out of the office. The Tecra Z50 range is designed, engineered, manufactured and rigorously tested by Toshiba for a level of quality and confidence that simply cannot be found with any other brand.

- » 8th Generation Intel Quad-Core Processors
- » Windows 10 Pro
- » 15.6-inch Widescreen FHD display
- » SSD, from 256Gb
- » DDR4 2400 Mhz, 8Gb – 32Gb RAM
- » 1 x HDMI, 4 x USB 3.0, 1 x VGA, Ethernet, Bridge Media Slot & Headphone/microphone combo port.
- » Aluminium Casework

- » Compatible with Toshiba U3.0 (PA3927A-1PRP) & 4K (PA5217A-1PRP) Docking stations
- » HALT Tested

# Fleet optimised

## FLEET-FRIENDLY FEATURES REDUCE TOTAL COST OF OWNERSHIP

The Tecra and Portégé series are designed to help businesses reduce the total cost of ownership.

- » Fully optimised for effortless deployment with a common BIOS, firmware and imagery.
- » A stable platform shared with other models in the Portégé and Tecra series simplifies deployment, management and support of new models.
- » Advanced management features including AMT (optional on selected models).

## TOSHIBA'S EASYGUARD™ HELPS KEEP USERS UP AND RUNNING

EasyGuard™ includes a suite of features that make our notebooks more secure, reliable, connected and convenient.

- » **Security:** hardware and software systems help safeguard data, and aid recovery in case of theft.
- » **Protection:** design and hardware innovations help protect against incidents and accidents.
- » **Connectivity:** hardware and software innovations help users connect quickly to wired and wireless networks in familiar or unfamiliar environments.
- » **Manageability:** hardware and software innovations make it easier to use and manage Toshiba's laptops, and troubleshoot and resolve issues.

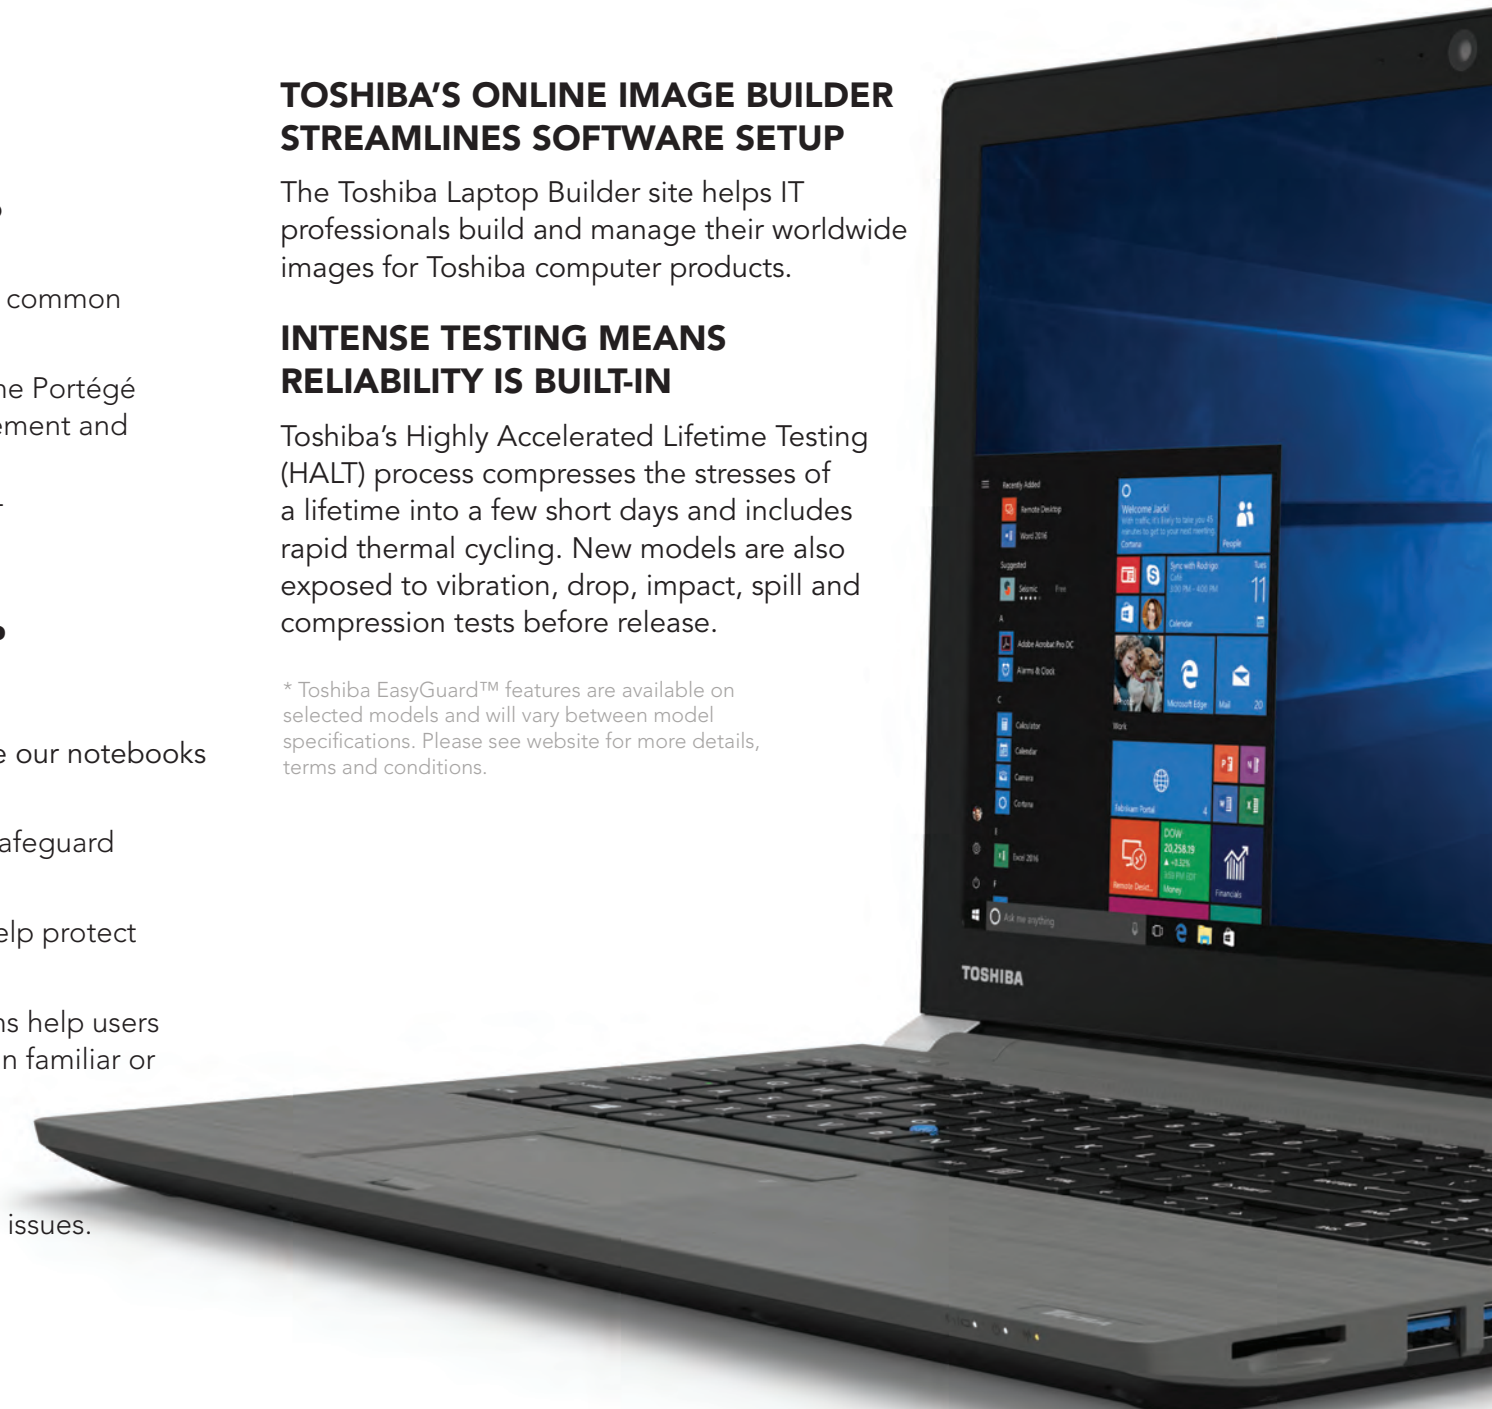

## TOSHIBA'S ONLINE IMAGE BUILDER STREAMLINES SOFTWARE SETUP

The Toshiba Laptop Builder site helps IT professionals build and manage their worldwide images for Toshiba computer products.

## INTENSE TESTING MEANS RELIABILITY IS BUILT-IN

Toshiba's Highly Accelerated Lifetime Testing (HALT) process compresses the stresses of a lifetime into a few short days and includes rapid thermal cycling. New models are also exposed to vibration, drop, impact, spill and compression tests before release.

\* Toshiba EasyGuard™ features are available on selected models and will vary between model specifications. Please see website for more details, terms and conditions.

# Storage Solutions

Toshiba is the inventor of flash memory, and one of the world's leading storage suppliers, setting many of today's industry standards for storage technology. Toshiba designs, develops and manufactures storage for end-users in enterprise, mobile and retail environments. Toshiba's devices can be found inside many products produced by other leading vendors. They are also used in Toshiba's own range of business notebooks, ensuring seamless system integration and compatibility.

## USB FLASH DRIVES

Choose from a range of colours from 4GB to 64GB in USB 2.0 and 3.0.

## PORTABLE HARD DRIVES

High capacity external hard drives up to 3TB available in a variety of colours.

## MEMORY CARDS

MicroSD, SD and wireless SD cards ranging from 8GB to 64GB.

# Docking Stations

The ability to shift easily between locations is critical to productivity. Connecting to larger screens and an external keyboard can help boost a notebook user's experience when they work from home or the office. Toshiba Docks make it easy by connecting everything with just one connection.

## TOSHIBA THUNDERBOLT™ 3 UNIVERSAL DOCKING STATION
